

THE PUPPY PACKAGE

WHAT IS THE PUPPY PACKAGE?

The puppy package is designed to help you bring up your puppy with the use of positive reinforcement training, teaching them valuable life skills and helping to guide them into adulthood as well as having fun while learning. Similar to what you would achieve and learn attending puppy classes, the puppy package aims to work on key areas of training with your puppy that will all be useful later in their life. The content of sessions and skills taught will be decided upon by you with suggestions from Here Boy! Dog Training. Skills that we look to teach might include:

- Recall
- Loose lead walking
- House-training
- Teaching your dog their name
- Sit, down, stay, paw
- How to settle
- AND SO MANY MORE!

WHY CHOOSE THE PUPPY PACKAGE?

So why choose the puppy package over your local dog training class? Firstly, keeping a weekly commitment isn't always easy! With the pressures of work, social life and of course looking after your new puppy, time for training can become sparse but don't worry the puppy package is here to help. Each session can be booked in at a time that suits you, working training into your lifestyle. Unlike puppy classes the puppy package works on a 1-2-1 basis, meaning that each session can be tailored to both you and your dog focusing on individual needs and provide a much more detailed personalised training plan. Of course socialisation with other dogs is a key part of a puppy's upbringing and we want to make sure they get the chance to practice and develop those all important social skills. Thankfully, the flexibility of the puppy package allows us to plan ahead booking in a session dedicated to nothing but socialising your puppy.
